

You are cordially invited to

SAS Cervical Cancer
Foundation's

Evening of Hope

March 12th

The Story behind

SAS Cervical Cancer Foundation:

Sybil Ann Seehawer (SAS) was diagnosed in 2007 at the age of 30 with cervical cancer. After numerous treatments Sybil lost her battle with cervical cancer in September 2008. Sybil was not a statistic, she was a mother, daughter, sister, wife and very dear friend. It is in her memory we have dedicated this foundation to helping other women who are

struggling financially and emotionally through the diagnosis of cervical cancer. Sybil's dream was to help others the way she was helped by her friends, who she called her "angels".

Join us in honoring her dream, become an "angel" to women in Wisconsin

Evening of Hope

Saturday, March 12th, 2011
